Every lawn mower on the north side of town seemed to be running soon this morning. This listens good.

The Western Union office is being re-floored again today. This is a common thing to do in Dothan. Sometimes floors last less than six months. Not the atmosphere, but the way the buildings are put up, lacking ventilation or something.

THIS IS MEAN.

Rev. Bob Jones held a meeting at Florida a few nights ago to tell "the men only" how mean they were, and they say it like to have been an all-night meeting.—Elbo Clippes

We have had many delegations before in Dothan, for the town is coming into note as a place where conventions are held. But it has never had a lot of newspaper delegations in town before. They are about like other delegates, with this exception. They are not only themselves, but mediums through which much advertising will be given. Each has a mouth-piece, and works it, and it is what they will do when they go back home which makes this difference from that of other delegations.

COUNTING 'EM OFF.

Here the other day, to be exact, the 11th of the month, the town sent a man up with a monkey wrench and cut off the water of Policeman Reeves. He had over-slept his rights for a day, or the day passed while he was on his beat, from twelve at night to eleven in the day. The town hated to do it, no doubt, but wanted to treat all alike. The fact that Mr. Reeves was working for the town cut no figure. He thinks they did him wrong, because they refused to accept his money for the water in advance, the rate made him being a flat rate anyway and easy to figure. Then too, he says that on divers occasions, he has carried the city's warrants in his pockets for months, unable to get them cashed, when times were hard down at the City Hall, and he thinks all of these things might have been taken into consideration, with an old customer, a regular customer. He took occasion to say what he thought about the situation and the word called for another, till things were called off. He laid down his club, pulled off his star, and the job he had been holding down four years with such entire satisfaction remains open up to the time of going to press. It is to be hoped that he and the city clads will patch up a peace treaty and that he will continue to work for the town.

Judge Dewey, it is said, belongs to one of the most prominent families in New England, so he lives in Boston. This prominence had never been brought to the attention of the public to any great degree, by some oversight, and so the Judge found grounds for complaint, or he had some things that he took as grounds for complaint and immediately began to use the grounds. He filed the other day, a suit against the officials of the government for \$76,000,000 which amount is a help to the scandalized character. The Judge got into politics in the mayoralty campaign, four years ago, and it is possible he was

thrown out, and what he sees now is a libel suit. Nothing short of the seventy-six millions will appease the Judge's wrath, and nothing has been done looking to a compromise. Another question might arise, and we rise to know about it—who's going to pay that judgment when the court renders it? Who is the Good Government Association? and is it good for its accounts, judgments, etc?

As before stated, the Judge had not been properly advertised as a prominent citizen, the papers hadn't been saying enough about him, and publishing his picture, and he seeks to get the same grade of notoriety as that of his fellow-townman, the professor, who stood up and spoke of the ten million dollar telephone to Main plan. It must be catching, up in that climate.

A NEW POSTAL CARD

For years and years, the people who pay their good pennies for postal cards, have felt that they were not getting the worth of their money in the present porous surface railroad board the government contract calls for. These cards might do all right, if a hard lead pencil is used, but there is still a certain class of citizens who must on using pen and ink when writing, even a postal card. It is for this class that the proposed card is to be gotten out.

The government is old enough and well enough established, to buy a little better grade of cards and it goes without saying that the proposition of canceling the old contract, or failing to renew it, when the contract runs out, in December, will carry.

Postmasters and post office clerks have often found cause for complaint, for the cards "pick up" on the pen so till the writing is a mess.

It was because the government got out such a sorry grade of postal cards that post-card printers started up a few years ago, and

the only way to drive them to the wall, is for the government to put up something better—something worth the money, and in keeping with the dignity and age of our government.

CUT THE GRASS

The work on the vacant Dr. Blackshear lot is all for naught unless the weeds and grass are cut. The time is short but some body should be willing to chip in enough to pay for the cutting. Something toward this might be obtained from this office which has caused such a row about it

All goods marked in plain figures. Same price to all. One man's dollar buys as much as another's at our store.

SUIT CASES AND BAGS

We have received two shipments of Suit Cases and Bags, and you know when traveling one is judged as much by his suit case as by the clothing he wears. Ours range in price from \$3.50 to \$25. We can please you in this line.

We anticipated the demand for bathing suits and have put in well selected line, prices from \$1.50 to \$2.50 a suit. Come by and look in on them.

GRANT CLOTHING CO.

TO-MORROW NIGHT.

Tomorrow night we are looking for nearly all the delegates of the Alabama Press Association. Some may reach here on the Bowdoin Special, but the connections beyond Montgomery will put most of them here on the eleven o'clock train. A committee will meet them at the train and get them started toward their homes.

We further believe that it is useless to sit up and wait for them. Just be expecting an alarm at any hour, and go to bed leaving things handy. When a racket is started, you can turn them in.

No newspaper man has any business sleeping over eight hours and some don't require that much. If they try to sleep longer, wham on the door with a club. They will think it a printer planing the forms for press, and will not take offense.

A RECORD BREAKER

The Headland Avenue Baptist Church has been going quietly along on its business, attending to its business, and the Sunday school has prospered like unto the green bay tree.

About a year ago when the roll of scholars was called, there were just thirty-two. Yesterday, when the count was made there were present three-hundred and fifteen. This exceeded the attendance at the First Baptist Church, which had less than 300.

They are workers, that crowd up on Headland Avenue, and they let no shining opportunity pass. They will have things going when their church is erected.

Mrs. C. E. Harmon went to Montgomery yesterday to visit Mrs. E. L. Harmon. While in Montgomery Mrs. Harmon will take a course of instruction in china painting.

The Dothan Eagle has solved the bathing-suit problem for the editors who take a dip in the briny at Panama City, Fla. week after next to our satisfaction. Thanks, Bro. Hall for suggestion to use overalls. We will carry ours along; also a hob-tailed, hob armed shirt to make the costume complete. But will leave our "ella" at home. Many of those north Alabama hill-billy editors wouldn't recognize a bathing suit if they should meet it in the road. Pine Belt News.
